

Policy & Estrategy

LAN vision on Agriculture in Colombia & Peru

- Inclusive growth of the Colombian and Peruvian countryside.
- Feeding the Colombian and Peruvian cities.
- Colombia and Peru as agricultural powerhouses.
- Sustainable agriculture value chains.

Circular Agriculture agenda in Colombia

- "Water for agriculture" in the oil palm, banana, flower and coffee sector
- Valorization of biomass in the oil palm, banana and coffee sector
- Reducing use of and re-using plastics in the banana and flower sector
- Integrated Pest Management (IPM) in the oil palm, banana and flower sector
- Protein transition for the poultry and pig sector
- Valorization of manure in the poultry and pig sector

Circular Agriculture agenda in Peru

- "Water for agriculture" in the coffee sector.
- Valorization of manure in the poultry sector
- Responsible Business Conduct (RBC) in large scale crops

Sustainable Development Goals

LAN ANDES will focus its work the coming years on the following Goals and Targets

Projects 2022

- Market access in the working area.
- Assisting Dutch companies, knowledge institutes and NGO's with their activities in the working area.

Circular Agriculture

feeding the cities

Putting theory into practice

Biodiversity

FORESTS & LAND ISSUES

- LNV** Integrated river basin management in the Magdalena-region, Colombia through a Watershed Monitoring Tool
- PvW** Aquifer Storage and Recovery for sustainable banana production in the Magdalena region
- TS** Starch from residues for starch plastics
- PIA** Lowering the environmental footprint in the floricultural sector: plastic use and IPM
- PIA** Follow up K2K cooperation in oil palm on more efficient use of resources: implementing results
- PIA** B2B platform and living lab for best practices in Circular Agriculture
- LNV** Protein transition for the poultry sector
- PIA** Follow up on integrating Dutch know-how and technology in manure valorisation
- PSD** Circular and inclusive coffee production in Jaen
- PSD** Application of the Global Reporting Initiative concepts to the organic banana cooperative sector in the Piura region
- PIA** Study on manure valorisation in the poultry sector

- PSD** Assessment of an agrologic masterplan for the Northern region of Colombia
- PSD** Dutch-Colombian cooperation on Anti Microbial Resistance
- PSD** Development of the horticultural sector: roundtables, knowledge transfer and building supply chains
- LNV** Improving food security: gastronomy and tourism school in Magdalena
- PSD** Nexus Food component in the Santa Eulalia sub-basin
- PSD** Agrologistics and Cold Chain

- Integrating Radar based satellite data with Colombian forest monitoring systems.
- Land at Scale
- Land in Peace II Phase
- Support the dialogue with local authorities and NGO's (Biodiversity and deforestation)

- ### Activities 2022
- PIA** Dutch Pavilion & Agrotalks Agrofuturo
 - PIA** Dutch experts participating in academic agenda's FENAVI and PorKColombia Congress
 - PIA** Dutch Pavilion FENAVI Congress
 - PIA** Study trip winners Hackaton Circular Agriculture to NL
 - PIA** Closure seminar Electronic Certification project to facilitate trade
 - PIA** Manure valorisation in the pork and poultry sectors – showcase with NL businesses & COL government

- ### Resources
- BPA:** Budget Promotional Activities
 - BZ:** Ministry of Foreign Affairs
 - DGGF-TA:** Dutch Good Growth Fund - Technical assistance
 - LNV:** Ministry of Agriculture, Nature and Food Quality
 - PIA:** Program International Agribusiness
 - PSD:** Private Sector Development toolkit
 - PvW:** Partners for Water
 - TS:** Top Sectors
- ### Countries
- Colombia
 - Perú
