15-th International Conference
“Biomass for Energy”
September 24-25, 2019

www.uabioconf.org

Bioenergy of Ukraine keeps steady growing by **33% per year**. For **13 days** in 2018 Ukraine fully satisfies its needs only because of bioenergy: that is two extra days of clean energy compared to 2017.

A number of laws, which have already been adopted or prepared for adoption, contribute to further development of the bioenergy sector, in particular:

- The Law of Ukraine on stimulation of heat energy production from alternative energy sources.
- The Draft Law regarding the provision of competitive conditions for the production of electricity from alternative energy sources.
- The Draft Law regarding the development of solid biofuels trading (Biomass Exchange creation).
- The Draft Law regarding the competition introduction in the district heating systems.

Changes and opportunities that they bring, we can discuss on the 15-th International Conference “Biomass for Energy”

Annually, from **2002**, conference brings together about **200 participants** from more than **20 countries**: those who are interested in bioenergy and sustainable development. It is a good opportunity for **networking**, discussions about new **trends and technologies** and to sharing **Your company achievements** with sector leaders from different countries.

Join Conference and let's **greening the energy** together!
