HOBBIES

I am passionate about sports and maintaining an active lifestyle. My interests include crossfit, hiking, running, cycling, skiing, windsurfing, football, and motorsports. During my time in Japan, I hope to challenge myself by completing both the Tokyo Marathon and the Mt. Fuji Marathon. I also enjoy cooking and experimenting with new recipes and cuisines, as I believe food is one of the best ways to discover and appreciate different cultures. Finally, I have been fascinated by Japanese car culture since childhood. Living in Japan provides a unique opportunity to experience its automotive heritage firsthand.
